RE: HCWD/OIC Tariff/PSC Case No. 2006-00191

Dear Ms. O'Donnell:

I am in receipt of the Commissions Order in the above-styled case granting my client, Henry County Water District #2, until October 2, 2006 to respond to interrogatories in this case. In the motion for enlargement that I filed on behalf of the District, we also requested an opportunity to have an informal conference with Commission staff which request was not addressed in the Order issued by the Commission. I would greatly appreciate it if you could advise me as to whether such an informal conference can be arranged as my client and its engineer, Tetra Tech, feel that such a conference would be extremely helpful to all parties involved in determining what the true issues are with regard to this matter.

Very truly yours,

D. Berry Baxter
